THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE  
OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793  
AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVE-  
LATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS  
PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

1. The purpose of the ISPE (Institute for Electrical Research and Planning) located at 33 Boulevard Republicii, Bucharest, is to draw up projects for the electrification and exploitation of Rumania's sources of power. All projects must be submitted to the Planning Commission. These projects include the alteration and modernization of existing power stations, and the standardization of the entire electrical supply. At the time the Institute was created, all power stations were producing current of different voltages. The Institute is composed of the following departments: Hydro-electrical, Thermo-electrical, Wiring and Power Stations, Design, Administration and Planning.
2. Rumania is divided into five districts with regard to the supply of electricity. They are: Moldavia, Northern Transylvania, Central Transylvania, Southern Transylvania, including Banat and Lower Oltenia and Mutenia and Upper Oltenia.
3. Two plans have been worked out by the Institute. They are the first Five Year Plan for the period up to 1955, and the second Five Year Plan for the period from 1955 to 1960. Machinery and all equipment for these projects are imported from the USSR.
5. There are about 2,000 employees in the Institute, 150 of whom, mainly engineers, designers and mathematicians, are employed in the Design Department.
